Website: <https://shahnawazkhazi.com> | Github: <https://github.com/Shahnawaz-Khazi/>
LinkedIn profile: <https://www.linkedin.com/in/mohammad-shah-nawaz-khazi/>

Full Stack Web Developer with 6+ years of experience in developing responsive, scalable, and user-friendly web applications. Demonstrated consistent growth, moving from Intern to Senior Web Developer. Adept in both front-end and back-end technologies, with a strong passion for learning and implementing new tools and frameworks.

Work Experience:

Khoros R&D India Pvt. Ltd. – Bengaluru (Bangalore), Karnataka – INDIA

Senior Web Developer | May-2023 to August-2025

- Led the complete revamp of the company's website, improving performance, user experience, and accessibility across all devices.
- Utilized modern front-end technologies including **HTML5, CSS3, Tailwind CSS, JavaScript, and React** to build responsive, accessible, and high-performing web interfaces.
- Maintained and enhanced website functionality built on **Craft CMS** and **PHP**, including regular **CMS and plugin upgrades** to ensure system stability and security.
- Collaborated with international teams as the **sole representative from India**, providing key development support and driving cross-regional coordination.
- Ensured **web accessibility** compliance (WCAG standards) and implemented **responsive design** principles for a seamless user experience on all devices.
- Maintained version control and collaborative development practices using **Git and GitHub**.
- Promoted to **Senior Web Developer** in recognition of outstanding performance and technical leadership within the team.

Quesscorp Ltd. (QUESS) – Bengaluru (Bangalore), Karnataka – INDIA

Intern to Sr. Web Developer | 2019 - 2023

- Progressed from **Intern to Senior Web Developer**, demonstrating consistent growth, ownership, and technical excellence.
- Built and managed **20+ WordPress websites**, customizing themes and plugins to meet diverse client and business requirements. Developed responsive and cross-browser-compatible web pages using **HTML, CSS, JavaScript, and Bootstrap**. Utilized **PHP and MySQL** to build custom functionalities, manage content dynamically, and enhance site performance.
- Created high-converting **landing pages, email templates**, and internal tools for **lead capture and form integration**, contributing to increased user engagement and lead generation.
- Owned and executed the **entire project lifecycle** — from gathering requirements to development, testing, deployment, and post-launch support.
- Collaborated closely with designers, marketers, and other developers to deliver high-quality digital solutions on time and within scope.
